Stuart Robson and most of the members of his company attended the organ recital at the Tabernacle this morning. Mr. Robson will be greeted by a fine audience in Thomas' new play of "Oliver Goldsmith" tonight.

T. J. Wilson, Right-of-Way-Agent for Southern Pacific, Wires from Ogden to San Francisco that Lucin-Ogden Cut-Off is Secured,

[SPECIAL TO THE "NEWS."] Ogden, Oct. 26.-The last foot of land in the Ogden-Lucin cut-off right of way has been secured by the company and indications point to the fact that the work upon the new line on the Southern Pacific will be pushed to an issue with promptness and dispatch so that the road will be in a position to push their trains right through to San Francisco without double-heading and other delays at the big hill that will be cut out of the route by the cut-off. T. J. Wilson, the right-of-way agent of the Southern Pacific, who has been in the city for some weeks past, purchasing land for the road and otherwise attending to the business connected with this important move, this afternoon telegraphed to Chief Engineer Hood of the Southern Pacific at San Francisco, and informed him that he has secured the entire right of way bemorrow where he will consult with the committee which has this important piece of engineering work in hand and providing the report is in every way satisfactory, work will be pushed from both ends upon the improvement. It is therefore assured that dirt wil begin to fly in the near future, as Mr Wilson's capabilities for working in the

best interests of the company he represents have been so often successfully

proven in the past precludes the possibility of any speculation upon there being any flaws in the titles to the right-of-way and the lands aboutting the same which he has secured for his company. This cut-off will mean great things for Ogden as hundreds of men will employed upon the track and they will get their supplies here. When the line is completed it will be a drawing card with tourists and the traveling public

of the Great Salt Lake. There are rumors to the effect that when this line is completed there will be a large pleasure resort built tween the two points affected, and that he had forwarded all the papers pertaining to the matter to the head office. He will leave for San Francisco to-

generally, as the train will travel for miles over trestles built over the waters
